

Deutscher Frauenring e.V.

We wish, ...

... that all whom we have born look to the future with optimism,
... that all women, young and old, at all times stand confidently with both feet
on the ground, whether in the city or the country,
... that from time to time we turn the world topsy-turvy, in order to see things
from a new perspective,
... women strength and courage on the way to equal participation of both
men and women in all societies and on all continents.

We wish women

strength and courage on the way to equal participation of both
men and women in all societies and on all continents.

TwoThousandEleven
100th International Women's Day
